Vizia RF™ Plug-in Serial Interface Module

The Vizia RF Plug-in Serial Interface Module is a part of Leviton's Vizia RF Wireless Home Control System. These devices combine the popular Vizia family of lighting devices with Z-Wave® award-winning RF-based home control technology to deliver the first line of truly dependable, scalable and practical wireless home control devices that will set the standard for residential control system performance for decades to come.

The Vizia RF Wireless Home Control System provides scalable, easy-to-install, retrofit ready, remote control of appliances and lighting as well as one-button scene and zone lighting control that lets you instantly create the perfect ambiance for any occasion. And, best of all, Vizia RF does all of this without any of the interference and less-than-consistent performance of previous home control systems.

APPLICATION

The Vizia RF Plug-in Serial Interface Module is ideal for any residential setting where a serial interface is required to integrate with other home automation systems. This is done through a RS232 connection with a PC based application used to configure a home automation system. This is ASCII based and requires a high level of programming skill.

FEATURES AND BENEFITS

- Provides RJ11 connector for RS232 or HAI® cable connection
- Rated 120VAC 60Hz
- Two-way communication between related Controller(s) and Module for changes initiated locally
- Protected memory maintains ON/OFF status of connected loads and device ID programming during minor power fluctuations
- Green Locator LED
- Transient surge protection to IEC Level 4
- ESD protection to IEC 1000 4-2 Level 4 to protect against damage and memory loss due to static discharges
- Includes serial cable/Includes HAI connector cable
- Z-Wave® compatible
